

Product Description

[Core Technology] Terahertz Chips + Quantum + Optical Quartz + Negative Ion + Blue Light Therapy Product

Use Non-invasive operation, deep heat penetration, continuous heat energy, open up circulation, strain recovery, stimulate cells, relax muscles and collaterals, relieve pain, remove moisture, remove dampness and remove cold, beauty maintenance, health care, safe use, direct access to the affected area Applicable people: sub-health, pain, middle-aged and elderly, damp people High permeability.

The active terahertz energy light waves can penetrate 20-30CM of the human body (manual massage can penetrate 2-3CM, and general instruments can reach 6-7CM), quickly dredge the meridians, lymph nodes, improve microcirculation, expel cold and dampness, and soften knots.

Quick results 3 minutes to relieve itching, 10 minutes to relieve pain, 20 minutes to clear meridians and collaterals, high temperature kills abnormal cells, repairs damaged cells, and clears blockages Intelligent Recognition Penetrates normal tissues, reaches the uncomfortable part, activates inert cells and human body's self-healing power.

Quantum Sprouts under the influence and penetration of modern science, especially modern physics and modern biomedicine, and develops on the basis of quantum mechanics. It uses the electronic fluctuations, radiation, and energy in the microscopic state to comprehensively, systematically, comprehensively, and develops the prevention, regulation, diagnosis, treatment, rehabilitation, anti-aging, and detoxification of the patient's body.

Quantum is a hot ball, and the transfer of energy is discontinuous. The more quanta an object gets, the higher the temperature. Anion Purifying air Ecological negative ions Boost immunity Eliminate static electricity Eliminate odors Antibacterial and bacteriostatic Activated cells Antioxidant and anti-aging Decompose smoke Remove odor and formaldehyde Improve sleeping Promote blood circulation Purify the blood Alleviate respiratory diseases Eliminate fatigue Improve myocardial function Promote metabolism Disinfection and sterilization Improve lung function.

Enhance the ability to resist disease Optical Quartz High temperature resistance, good shock resistance, extremely small thermal expansion coefficient, and good chemical stability. Excellent optical properties, uniformity, birefringence, and excellent transmittance.

Quantum Health Technology Makes Health Maintenance Easier

The Physiotherapy Secrets of Cellular Hyperthermia Drugs can treat tissue damage, but they cannot restore cell damage.

The cell hyperthermia instrument directly introduces light waves into the human body and automatically recognizes normal cells and accelerates blood flow (normal heat dissipation). Can bring a large number of negative ions to cells, solve the state of excessive accumulation of positive ions in the body, promote the self-repair and rebirth of body organs.

The terahertz wave cell therapy instrument can bring a lot of quantum to the cell Wake up the body's absorption capacity and relax the muscles Help open up the internal circulation and filter clutter

Suitable For Sub-Health Persons, Three Systems Protect The Health

1. Activate cells and activate the body's self-repair ability Applicable symptoms: cough, cold, throat, skin eczema, acne, hemorrhoids, hand, foot and mouth disease, muscle damage, cold limbs, underground immunity, etc.

2. Relax the meridians, clear fatigue, and regulate 8 main glands Applicable symptoms: prostatitis, gynecological diseases, mastitis, breast hyperplasia, frozen shoulder, cervical spondylitis, rheumatoid arthritis, gastroenteritis, cardiovascular and cerebrovascular diseases, hypertension, nerve palsy, neurasthenia, insomnia, dreaminess, dizziness , Tinnitus, etc.

3. Increase body temperature and prevent cancer Prevention of symptoms: prostate cancer, uterine fibroids, breast cancer, lymphoma, lung cancer, brain tumors, diabetes, Parkinson's disease.
